WEBINAR: THE CLEAN MICHIGAN INITIATIVE WATER QUALITY MONITORING GRANT: OVERVIEW AND PROPOSAL SUBMISSION TIPS. The goal of this Webinar is to provide background and status information on the Clean Michigan Initiative (CMI) Water Quality Monitoring grant program. The program provides funding to local units of government and non-profit organizations to carry out water quality monitoring activities to address local issues of concern and to identify new chemicals/issues that may be impacting the quality of Michigan's surface waters. Monitoring activities are limited to surface waters (i.e., rivers, streams, public access lakes, wetlands, the Great Lakes, etc.) and may include ambient chemical, biological, or physical monitoring activities, as well as the development of tools to help with the assessment of such data. 2015 will likely be the last year funds will be available through the CMI Water Quality Monitoring grant program. Approximately \$300,000 will be available for two-year water quality monitoring projects for fiscal year 2015. The Webinar will also address the proposal review process and answer RFP submittal questions.
